EDUCATION

KLE Technological University

B.E in Electrical and Electronics - CGPA : 8.53

Hubli, Karnataka

Aug 2018 – Jul 2022

KLE's Prerana PU College

Class XII - Percentage : 96

Hubli, Karnataka

May 2017 – May 2018

EXPERIENCE

Software Development Engineer Intern

Pravinya IT Services

Jan 2022 – May 2022

Hubli, Karnataka

- Worked as an SDE intern for 5 months, gaining experience in web development and Python programming
- Developed a mobile details scraper web application using Python and various libraries to extract information from e-commerce websites such as Amazon and Flipkart
- Demonstrated strong technical skills and problem-solving abilities in developing the mobile details scraper web application
- Gained hands-on experience with web technologies such as HTML, CSS, and JavaScript

PROJECTS

Web Chat Application | *React.js, Firebase, Firestore, GoogleAuth*

Github

- Developed a chat application using React that allows users to send and receive real-time messages.
- Integrated with Firebase, utilizing its real-time database and authentication features to enable seamless chat functionality.
- Implemented advanced functionalities such as the ability to create and join chat rooms.
- Utilized CSS and HTML to create a visually appealing and user-friendly interface that enhances the user experience.

Weather Application | *React.js, Axios, openweathermap API*

Link

- Developed a weather application using React that provides up-to-date weather information for any location that the user chooses.
- Integrated with openweathermap API, allowing users to access real-time weather data, including temperature, humidity and pressure.
- Utilized modern React technologies and features to create a responsive and intuitive user interface that ensures a seamless user experience.

Crypto Tracker | *React.js, Axios, coingecko API*

Link

- Developed a crypto tracker web application using React that provides real-time data on a variety of cryptocurrencies, including Bitcoin, Ethereum, and Litecoin.
- Integrated with cryptocurrency API, allowing users to access up-to-date market information, including price and historical data.
- Utilized CSS and HTML to create a visually appealing and user-friendly interface that enhances the user experience.

TECHNICAL SKILLS

Languages: C++, Java, JavaScript, HTML/CSS

Frameworks: React.js, Tailwind CSS, Node.js, Express.js

Databases: MongoDB (NoSQL)

Developer Tools: Git, Github, VS Code

Other: Data Structures and Algorithms, Object Oriented Programming, REST API's, Problem Solving
